

TAMAX-CS-2026 — Capability Statement

TAMAX VENTURES LTD. — CAPABILITY STATEMENT

- **Company:** Tamax Ventures Ltd. (Kansarawdo Mampong Road, Yankey Junction, Takoradi, Ghana)
- **Core Focus:** Industrial Commodities Supply & Heavy Logistics
- **Contact:** commercial@tamaxventures.com | www.tamaxventures.com

1. Company Overview

Tamax Ventures Ltd. provides end-to-end industrial supply chain solutions. We specialize in the procurement, warehousing, and bulk transportation of critical industrial minerals and construction chemicals. Our operations are tailored to support large-scale infrastructure projects, commercial agriculture, and mining operations across Ghana and the broader West African sub-region.

2. Core Competencies

Commodity Sourcing & Supply

We maintain robust supply lines for high-tonnage industrial materials, ensuring our clients never face operational downtime due to raw material shortages.

- **Lime Products:** Hydrated Lime, Quicklime, and Agricultural Lime.
- **Construction Materials:** Premium White Cement, Architectural Iron Oxide Pigments.
- **Custom Procurement:** Sourcing specialized industrial chemicals upon client request.

Heavy-Duty Logistics & Freight

We operate a dedicated fleet designed for heavy industrial haulage.

- **Flatbed & Sided Trailers:** For palletized goods, bagged cement, and jumbo bags.
- **Bulk Tipplers & Tankers:** For loose, dry bulk powders.
- **Port Operations:** Rapid container unstuffing and bulk evacuation directly from Takoradi Port.

Warehousing & Inventory Management

- **Covered Storage:** Weather-proof, moisture-controlled warehousing for sensitive materials like lime and cement.
- **Buffer Stock Management:** We hold strategic reserves to absorb supply chain shocks and guarantee Just-In-Time (JIT) fulfillment.

3. Industry Sectors Served

We possess the technical capacity and logistical muscle to serve highly demanding sectors:

Sector	Primary Applications
Mining & Metallurgy	Ore processing, pH control in leaching, effluent treatment.
Civil Construction	Road stabilization, architectural facades, premium paving.
Agriculture	Soil acidity correction, crop yield optimization.
Water Treatment	Municipal water purification and industrial wastewater neutralization.

4. Key Differentiators

[!TIP] Operational Excellence

- **Single-Source Provider:** We manage the material, the storage, and the transport. One point of contact, total accountability.
- **Scalability:** Capable of fulfilling orders ranging from a single 30-ton truckload to multi-thousand-ton monthly supply contracts.
- **Technical Support:** We provide comprehensive Technical Data Sheets (TDS), Safety Data Sheets (SDS), and SGS quality reports for all our products.

5. Quality & Compliance Framework

All operations at Tamax Ventures are underpinned by strict adherence to local and international standards.

- **Material Quality:** Certified by the Ghana Standards Authority (GSA) and international testing bodies.
- **Transport Safety:** Fleet equipped with GPS tracking, rigorous maintenance schedules, and highly trained operators.
- **Environmental:** Compliant with Ghana EPA guidelines for the handling and transport of hazardous and non-hazardous industrial materials.
